Subject: Label Amendment: Add Pathogen, SARS-CoV-2
Product Name: CaviWipes Bleach
EPA Registration Number: 46781-14
Application Date: August 28, 2020
Decision Number: 565955

Dear Ms. Lei:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Because you have opted to add statements pertaining to emerging viral pathogens to your label as described in the August 19, 2016, Guidance to Registrants: Process For Making Claims Against Emerging Viral Pathogens Not On EPA-Registered Disinfectant Labels ("Guidance"), https://www.epa.gov/sites/production/files/2016-09/documents/emerging_viral_pathogen_program_guidance_final_8_19_16_001_0.pdf, you are subject to the following additional terms of registration:

1. You may make statements pertaining to emerging viral pathogens only through the following communications outlets: technical literature distributed exclusively to health care facilities, physicians, nurses and public health officials, "1-800" consumer information services, social media sites and company websites (non-label related). These statements shall not appear on marketed (final print) product labels.

2. Your statements pertaining to emerging viral pathogens must adhere to the format approved on the Agency-accepted master label.
3. You may make statements pertaining to emerging viral pathogens only upon a disease outbreak that meets all the following criteria:
 - a. The causative organism must be a virus that causes an infectious disease that has appeared in a human or animal population in the U.S. for the first time, or that may have existed previously but is rapidly increasing in incidence or geographic range.
 - i. For human disease, the outbreak is listed in one of the following Centers for Disease Control (CDC) publications:
 - A. CDC Current Outbreak List for “U.S. Based Outbreaks” (www.cdc.gov/outbreaks),
 - B. CDC Current Outbreak List for “Outbreaks Affecting International Travelers” with an “Alert” or “Advisory” classification (www.cdc.gov/outbreaks) (also released through the CDC’s Health Alert Network (HAN) notification process)
 - C. Healthcare-Associated Infections (HAIs) Outbreaks and Patient Notifications page (www.cdc.gov/hai/outbreaks)
 - ii. For animal disease, the outbreak is identified as an infectious disease outbreak in animals within the U.S. on the World Organization for Animal Health (OIE) Weekly Disease Information page (www.oie.int/wahis_2/public/wahid.php/Diseaseinformation/WI).
 - A. The CDC or OIE has identified the taxonomy, including the viral family and/or species, of the pathogen and provides notice to the public of the identity of the emerging virus that is responsible for an infectious disease outbreak. Based on the taxonomy of the outbreak pathogen identified by the CDC or OEI, the pathogen's viral subgroup is large non-enveloped, enveloped.
 - B. The virus can be transmitted via environmental surfaces (non-vector transmission), and environmental surface disinfection has been recommended by the CDC, OIE or EPA to control the spread of the pathogen.
4. You may begin communicating statements pertaining to emerging viral pathogens only upon CDC or OIE’s publication per term 3.a. of an outbreak of an emerging viral pathogen meeting all of the criteria of term 3. You must cease and remove all such non-label communications intended for consumers no later than 24 months after the original publication of the outbreak per term 3.a., unless the Agency issue written guidance to the contrary due to continued public health concerns. The emerging pathogen claim language may remain on the master label.

5. Terms from points 1 through 4 above shall become immediately void and ineffective if registration for use against Feline Calicivirus is suspended or cancelled or no longer meets the criteria for a disinfectant claim (see EPA Product Performance Test Guideline 810.2200). In addition, terms B.1 through B.4 above shall become immediately void and ineffective upon your receipt of evidence of ineffectiveness against any pathogen in a less-resistant Spaulding category.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, you may contact Aline Heffernan at 703-347-8602 or via email at Heffernan.Aline@epa.gov.

Sincerely,

A handwritten signature in black ink that reads "Jacqueline Hardy". The script is cursive and fluid.

PHYSICAL AND CHEMICAL HAZARDS: This product contains bleach. Do not use this product with other chemicals such as ammonia, toilet bowl cleaners, rust removers, or acid, as this releases hazardous gases.

[FIRST AID]

[If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.]

[For Chemical Emergency ONLY (spill, leak, fire, exposure or accident), call CHEMTREC at 1-800-424-9300].

For [ALL] [other] inquiries about this product, call Metrex Customer [Service] [Care] at 1-800-841-1428, Monday through Friday, between 6 a.m. and 4 p.m. Pacific Time.

Note: This product meets EPA's Toxicity Category IV by all routes of exposure. Therefore, a Signal Word, Precautionary Language and First Aid Statement is not required in accordance to EPA Label Review Manual: Chapter 7. Registrant voluntarily put in the above First Aid statements.

Packaging Statements and Wipe Dispensing Instructions:

[Use A, B, or C as applicable depending on the wipe container/dispenser type.]

[A – Refillable, Non-refillable canister, buckets, tubs or pails]

[To dispense towelettes] [container] [canister][pail] [bucket] [tubs] [Dispensing Directions]:

[To start feed, remove cover and discard seal. From center of towelette roll, pull up a towelette corner, twist it into a point and thread it through the hole in the container cover. Pull through about one inch. Replace cover. Pull out first towelette and tear off at [(any angle)] [45°-90° angle]. Remaining towelettes feed automatically, ready for next use. When not in use, keep center cap closed to prevent solution loss.]

[To refill] [canister] [bucket] [pail]: Place refill [pouch] [bag] in bucket [canister]. Remove the lid from the [pail] [bucket] [canister]. [Use scissors] [to] [Cut] [Rip] [Tear] [Pull] [Open] refill pouch [bag]. Place [put] [insert] refill pouch into [bucket] [pail] [canister]. DO NOT remove wipe roll from refill pouch [bag]. From center of towelette roll, pull up a towelette corner, twist it into a point and thread it through the hole in the [bucket] [pail] [container] cover. Pull through about one inch. Replace cover. Pull out first towelette and tear off at [(any angle)] [45°-90° angle]. Remaining towelettes feed automatically, ready for next use. When not in use, keep center cap closed to prevent solution loss.]

Packaging Statements and Wipe Dispensing Instructions *continued*:
[Use A, B, or C as applicable depending on the wipe container/dispensertype.]

[B – Flat Pack]

[To dispense towelettes] [from flat pack:] [from Flat Pack wipes container:]

[Grasp the white tab that states "PULL HERE". Gently swing the lid open and grasp a towelette. Remove towelette from package and then swing lid closed. Gently tap the lid to ensure seal is made between it and the towelette package.]

[C – Single use packet]:

[Tear open packet. Unfold towelette and use as directed. Discard as directed.]

Emerging Viral Pathogen Claim

This product qualifies for emerging viral pathogen claims per the EPA's 'Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA-Registered Disinfectant Labels' when used in accordance with the appropriate use directions indicated below.

This product meets the criteria to make claims against certain emerging viral pathogens from the following viral category:

- Enveloped Viruses
- Large Non-Enveloped

<i>For an emerging viral pathogen that is a/an...</i>	<i>...follow the directions for use for the following organisms on the label:</i>
Enveloped virus	Feline Calicivirus
Large Non-Enveloped	Feline Calicivirus

Product Name -or- This product has demonstrated effectiveness against viruses similar to [name of emerging virus] on hard, non-porous surfaces. Therefore, Product Name -or- this product can be used against [name of emerging virus] when used in accordance with the directions for use against Feline Calicivirus on hard, non-porous surfaces. Refer to the [CDC or OIE] website at [pathogen-specific website address] for additional information.

[Name of illness/outbreak] is caused by [name of emerging virus]. Product Name -or- This product kills similar viruses and therefore can be used against [name of emerging virus] when used in accordance with the directions for use against Feline Calicivirus on hard non-porous surfaces. Refer to the [CDC or OIE] website at [website address] for additional information.

THE INFORMATION IN THIS BOX IS NOT PART OF THE LABEL

Statements in brackets, [], are optional or instructional. Bold, italicized text and italicized words within parentheses are information for the reader and are not included on production labels. Sequence of statements is optional unless specified in 40 CFR 156.10. Variables such as capitalizing, pluralizing, singularizing, bolding, italicizing and abbreviating are variable unless specified in 40 CFR. Lists of uses, use sites and surfaces may be used partially or in their entirety. The term 'towelette (s)' is interchangeable with wipe(s), towel(s), and cloth(s) and the term 'container' is interchangeable with dispenser(s), bucket(s), pail(s), tub(s) throughout the label. The term center(s), facility(ies), area(s), unit(s), clinic(s), room(s), lab(s), department(s), suites, office(s), operatory(ies) in the use site tables are interchangeable as applicable.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

[Use A, B, C, or D as applicable depending on the wipe container/dispenser type.]

[A – Nonrefillable container, canister, buckets or pails]

STORAGE AND DISPOSAL:

Product Storage: [Store at room temperature.] -or- [Store this product in a cool [dry] area, [away from direct sunlight and heat] to avoid deterioration.] [When not in use, keep center cap of lid closed to prevent moisture loss.]

Towelette Disposal: Do not re-use towelette. Dispose of used towelette in trash. [Do not flush in toilet.]

Container Handling: Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. If recycling is not available, discard in trash

[B – Refillable container canister, buckets, tubs, or pails]

STORAGE AND DISPOSAL:

Product Storage: [Store at room temperature.] -or- [Store this product in a cool [dry] area, [away from direct sunlight and heat] to avoid deterioration.] [When not in use, keep center cap of lid closed to prevent moisture loss.]

Towelette Disposal: Do not re-use towelette. Dispose of used towelette in trash. [Do not flush in toilet.]

[Refillable] Container Handling: Refillable Container. Do not reuse or refill except as described in direction for use. Refill only with this product. Triple rinse cracked or broken containers and offer for recycling. If recycling is not available, discard in trash.

[C – Flat pack]

STORAGE AND DISPOSAL

Product Storage: [Store at room temperature.] -or- [Store this product in a cool [dry] area, [away from direct sunlight and heat] to avoid deterioration.] [When not in use, keep [flap] [tab] closed to prevent moisture loss.]

Towelette Disposal: Do not reuse towelette. Dispose of used towelette and empty packet in trash. [Do not flush in toilet.]

[Flat Pack] [or Dispenser] Handling: Non-refillable container. Do not reuse or refill this flat pack. If recycling is not available, discard in trash.

[D – Packet]

STORAGE AND DISPOSAL

Product Storage: [Store at room temperature.] -or- [Store this product in a cool [dry] area, [away from direct sunlight and heat] to avoid deterioration.] [When not in use, keep [flap] [tab] closed to prevent moisture loss.]

Towelette Disposal: Do not reuse towelette. Dispose of used towelette and empty packet in trash. [Do not flush in toilet.]

[Packet][or Dispenser] Handling: Non-refillable container. Do not reuse or refill this packet. Discard packet in trash.

THE INFORMATION IN THIS BOX IS NOT PART OF THE LABEL

Statements in brackets, [], are optional or instructional. Bold, italicized text and italicized words within parentheses are information for the reader and are not included on production labels. Sequence of statements is optional unless specified in 40 CFR 156.10. Variables such as capitalizing, pluralizing, singularizing, bolding, italicizing and abbreviating are variable unless specified in 40 CFR. Lists of uses, use sites and surfaces may be used partially or in their entirety. The term 'towelette (s)' is interchangeable with wipe(s), towel(s), and cloth(s) and the term 'container' is interchangeable with dispenser(s), bucket(s), pail(s), tub(s) throughout the label. The term center(s), facility(ies), area(s), unit(s), clinic(s), room(s), lab(s), department(s), suites, office(s), operatory(ies) in the use site tables are interchangeable as applicable.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

To [clean and] disinfect [and deodorize] hard, nonporous surfaces:

Wipe hard, nonporous surface to be disinfected. Use enough wipes for treated surface to remain visibly wet for 3 minutes. [Rinse.] Let air dry. Visible soil loads must be removed prior to disinfecting. [If streaking is observed, wipe with a clean, damp [cloth or] paper towel after 3 minute contact time has expired.] [Use 1-minute contact time to disinfect against SARS-CoV-2* -or- COVID-19 Virus* on hard non-porous surfaces.] [To kill SARS-CoV-2* -or- COVID-19 Virus* on hard non-porous surfaces, use 1-minute contact time.]

(*) (Y) Special Instructions for Cleaning Prior to Disinfection against *Clostridioides difficile* spores.

Personal Protection: Wear appropriate barrier protection such as gloves, gowns, masks and eye covering.

Cleaning Procedure: Fecal matter/waste must be thoroughly cleaned from surfaces/objects before disinfection by application with [Product Name] [this product saturated with product name]. Cleaning is to include vigorous wiping and/or scrubbing, until all visible soil is removed. Special attention is needed for high-touch surfaces. Surfaces in patient rooms are to be cleaned in an appropriate manner, such as from right to left or left to right, on horizontal surfaces, and top to bottom, on vertical surfaces, to minimize spreading of the spores. Restrooms are to be cleaned last. Do not reuse soiled cloths.

Infectious Materials Disposal: Materials used in the cleaning process that may contain feces/wastes are to be disposed of immediately in accordance with local regulations for infectious materials disposal.

(#) (Y) Special Label Instructions for Cleaning Prior to Disinfection against *Candida auris*.

Personal Protection: Wear appropriate barrier protection such as gloves, gowns, masks, or eye covering.

Cleaning Procedure: Fecal matter/waste must be thoroughly cleaned from surfaces/objects before disinfection by application with [Product Name] [this product saturated with product name]. Pre-cleaning is to include vigorous wiping and/or scrubbing and all visible soil is removed. Surfaces in patient rooms are to be cleaned in an appropriate manner, such as from right to left or left to right, on horizontal surfaces, and top to bottom, on vertical surfaces, to minimize spreading the organism. Restrooms are to be cleaned last. Do not reuse soiled cloths.

Infectious Waste Disposal: Materials used in the cleaning process that may contain feces/wastes are to be disposed of immediately in accordance with local regulations for infectious materials disposal.

The following paragraph will be included in its entirety when the production label references medical devices:

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream, or normally sterile areas of the body, or (2) contacts intact mucous membranes, but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

THE INFORMATION IN THIS BOX IS NOT PART OF THE LABEL

Statements in brackets, [], are optional or instructional. Bold, italicized text and italicized words within parentheses are information for the reader and are not included on production labels. Sequence of statements is optional unless specified in 40 CFR 156.10. Variables such as capitalizing, pluralizing, singularizing, bolding, italicizing and abbreviating are variable unless specified in 40 CFR. Lists of uses, use sites and surfaces may be used partially or in their entirety. The term 'towelette (s)' is interchangeable with wipe(s), towel(s), and cloth(s) and the term 'container' is interchangeable with dispenser(s), bucket(s), pail(s), tub(s) throughout the label. The term center(s), facility(ies), area(s), unit(s), clinic(s), room(s), lab(s), department(s), suites, office(s), operatory(ies) in the use site tables are interchangeable as applicable.

DIRECTIONS FOR USE *continued*

The following HIV-1 / HBV / HCV instructions are to be included on production labels when claims against HIV-1 or HBV or HCV are listed.

(Y) CaviWipes Bleach effectively kills [Human Immunodeficiency Virus* Type 1 (HIV-1),] [Hepatitis B Virus* (HBV),] [[and] Hepatitis C Virus* (HCV)] on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids in healthcare settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood/body fluids, and in which the surfaces/objects can be associated with the potential for transmission of [HIV-1,] [HBV,] [[and] HCV].

Special Instructions for Cleaning and Decontamination Against [HIV-1,] [HBV,] [[and] HCV] of Surfaces or Objects Soiled With Blood or Body Fluids:

Personal Protection: When handling items soiled with blood or body fluids, wear appropriate barrier protection: disposable protective gloves, gowns, face masks and eye coverings.

Cleaning Procedure: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this disinfecting towelette. A CaviWipes Bleach towelette can be used for this purpose.

Contact Time: Thoroughly wet surface with a new CaviWipes Bleach towelette. Repeated use of the product may be required to ensure that the surface remains visibly wet for 3 minutes.

Disposal of Infectious Materials: Dispose of used wipe in accordance with Federal, State or local regulations for infectious materials disposal.

The following direction is to be included when hard, non-porous exterior surfaces of ultrasound transducers or probes are listed as a use site.

To disinfect external surfaces of ultrasound transducers: Pre-clean ultrasound gel from external transducer to be disinfected [by using a clean washcloth]. Then thoroughly wet the probe with a CaviWipes Bleach towelette. Repeated use of the product may be required to ensure that the surface remains visibly wet for 3 minutes.

THE INFORMATION IN THIS BOX IS NOT PART OF THE LABEL

Statements in brackets, [], are optional or instructional. Bold, italicized text and italicized words within parentheses are information for the reader and are not included on production labels. Sequence of statements is optional unless specified in 40 CFR 156.10. Lists of uses, use sites and surfaces may be used partially or in their entirety. The term 'towelette (s)' is interchangeable with wipe(s), towel(s), and cloth(s) and the term 'container' is interchangeable with dispenser(s), bucket(s), pail(s), tub(s) throughout the label. The term center(s), facility(ies), area(s), unit(s), clinic(s), room(s), lab(s), department(s), suites, office(s), operatory(ies) in the use site tables are interchangeable as applicable.

DIRECTIONS FOR USE *continued*

The following statement is to be included on production labels when animal housing facilities are listed. (Including Veterinary Clinics, Farms and Poultry Houses)]

For cleaning and disinfecting the following hard nonporous surfaces: feeding and watering equipment, utensils, instruments, cages, kennels, stables, catteries, etc.

1. Remove all animals and feeds from premises, animal transportation vehicles, crates, cages etc.
2. Remove all litter, droppings and manure from floors, walls and surfaces of facilities (including pens, chutes, and barns) occupied or traversed by animals.
3. Empty all troughs, racks, and other feeding and watering appliances.
4. Thoroughly clean all surfaces with soap or detergent and rinse with potable water. Use enough wipes for treated surface to remain visibly wet for 3 minutes.
5. Wipe all handling and restraining equipment such as leashes, muzzles, halters or ropes, as well as forks, shovels, and scrapers used for removing litter and manure.
6. Ventilate buildings and other closed spaces.
7. Do not house animals or employ equipment until treatment has been absorbed, set or dried.
8. Thoroughly scrub treated feed racks, troughs, mangers, automatic feeders, fountains, and waterers with soap or detergent, and rinse with potable water before reuse.

The following statement is to be included on production labels when food contact areas or surfaces are listed.

+ A thorough rinse with potable water is required for surfaces in direct contact with food.

[DO NOT USE AS A BABY WIPE.] [Not For Use On Skin] [DO NOT FLUSH WIPE]

[Not for cleaning or sanitizing skin.] [Do not use as a diaper wipe or for personal cleansing.] [APPLY CAREFULLY – This product contains bleach.] [Refill only with this product.] [Always refer to manufacturer's care instructions before using on equipment -or- devices.]

[The following graphics are optional for canister containers only. They will be affixed to the label/canister so that it does not interfere with any label text. Due to size constraints, they will not appear on individually wrapped packets.]

THE INFORMATION IN THIS BOX IS NOT PART OF THE LABEL

PRODUCT CLAIMS

▲ to represent any use site(s) listed in below as applicable.

◆ to represent any surface(s) listed in below as applicable.

- [___# pre-saturated towelettes] [X" x Y"]
- [3 minute contact time]
- [99.9999% [6 [six] log] reduction for [*Clostridioides difficile*¥ -or- [*C. difficile*¥] -or- [*C. diff*¥] [(*C. diff*)¥] spores] on hard non-porous surfaces]
- [[99.999% [5 [five] log] reduction for [*Candida auris*#] -or- [*C. auris*#] on hard non-porous surfaces]
- [99.9% [3 [three] log] reduction for SARS-CoV-2* -or- COVID-19 Virus* [in one step¥] [in the presence of [5%] soil load] on hard non-porous surfaces]
- [Kills a minimum of [[99.999% [5 [five] log] of [*Candida auris*#] -or- [*C. auris*#] on hard, non-porous surfaces.]
- [Kills 99.9% -or- 3 [three] log of SARS-CoV-2* -or- COVID-19 Virus* on hard, non-porous surfaces [in one step¥] [in the presence of [5%] soil load]]
- [A 1:10 sodium hypochlorite solution for effective disinfecting against *Clostridioides difficile*¥ -or- *C. difficile*¥ -or- *C. diff*¥ [(*C. diff*)¥] spores] on hard non-porous surfaces]
- [A 1:10 sodium hypochlorite solution for effective environmental disinfection against [*Candida auris*#] -or- [*C. auris*#] on hard non-porous surfaces]
- [A 1:10 sodium hypochlorite solution for effective environmental disinfection against SARS-CoV-2* -or- COVID-19 Virus* on hard non-porous surfaces]
- [A Metrex Research® brand]
- [A Metrex® brand]
- [A CaviWipes™ Brand]
- [Absorbs] [Absorbent] [wipe]
- [A disinfectant cloth for use in ▲ on ◆]
- [[Aids] [Helps] in reducing -or- in the reduction of cross-contamination between treated, hard nonporous surfaces]
- [An effective method to clean against odor-causing organisms on hard, non-porous surfaces listed on this label].
- [[A] one-step¥ cleaner/disinfectant]
- [[A] one-step¥ cleaner/disinfectant against SARS-CoV-2* -or- COVID-19 Virus* on hard non-porous surfaces]
- [A disinfectant towelette for use on ◆ and other ◆]
- [After use, just toss wipe(s) away]
- [Always ready-to-use]
- [An effective method to deodorize and disinfect against odor-causing organisms on hard non-porous surfaces, when used [according to] [following] disinfection [directions] [instructions]]
- [An effective way to disinfect hard, non-porous environmental surfaces]
- [An effective way to disinfect hard, non-porous environmental surfaces listed on this label.]
- [A non-woven disposable towelettes for use in ▲ and other critical care areas where control between treated surfaces is required]
- [Antibacterial]
- [Antimicrobial]
- [Fungicidal]
- [A One Step¥ Cleaner [and disinfectant] [except when precleaning is required for [*C. diff* ¥,] [*C. auris*#,] blood and body fluids]]
- [A solution impregnated in a wiping cloth]
- [[Appropriate] [for] Cleaning Patient Discharge]
- [Appropriate] for [Occupied Room] [and] [Terminal Room] [Discharge] Cleaning]
- [Assures proper dilution strength, product effectiveness and standardizes technique]
- [Kills [*Clostridioides difficile*¥] [*C. difficile*¥] [*C. diff*¥] [(*C. diff*)¥] spores] on hard non-porous surfaces]
- [Kills and/or Inactivates [*Candida auris*#] [*C. auris*#] on hard, nonporous surfaces]
- [Bacteria -and/or- virus* -and/or- germ killing [formula]]
- [Bactericidal] [Virucidal*] [Fungicidal] [Sporicidal against *Clostridioides difficile*¥ -or- *C. difficile*¥ -or *C. diff*¥ spores] [Tuberculocidal] [in 3 minutes]
- [Bactericide -or- Bactericidal] [(in 3 minutes)]

Lists of uses, use sites and surfaces may be used partially or in their entirety. The term 'towelette (s)' is interchangeable with wipe(s), towel(s), and cloth(s) and the term 'container' is interchangeable with dispenser(s), bucket(s), pail(s), tub(s) throughout the label. The term center(s), facility(ies), area(s), unit(s), clinic(s), room(s), lab(s), department(s), suites, office(s), operatory(ies) in the use site tables are interchangeable as applicable.

PRODUCT CLAIMS continued

[Note: The following claims can be used only for the first 6 months of the product on shelf]

- [New] [Strong] [Thick] Wipe [!]
- [New] [&] [dispensing] lid [closure] [cap] [package] [dispensing] [better [thanbefore]]
- [New]
- [New] [Package] [packaging]
- [New thick and larger embossed wipe cleans more surface area]
- [Now] [Reinforced] [With] [Quilted] [strength]
- [Now with [%] more towel]
- [Now with [#] more wipes]
- [Scrubs] (&) [cleans]
- [New Strong durable [wipe]
- [New Thick [wipe] [with] cloth-like texture]
- [New Large] [quilted] wipes]
- [New Thick wipes]
- [Multi-purpose [cleaner] [disinfectant] [Multi [-refill] pack] New [large] thick [textured]wipe]
- [New] [Big] [Strong] [Thick] [wipe] [!]
- [New] [dispensing] [lid] [closure] [cap] [package] [dispenses]

OPTIONAL GRAPHICS

[THE FOLLOWING GRAPHIS ARE OPTIONAL FOR ALL CONTAINERS. THEY WILL BE ARRIXED TO THE LABEL SUCH THAT THEY DO NOT INTERFERE WITH ANY LABEL TEXT.]

THE INFORMATION IN THIS BOX IS NOT PART OF THE LABEL

Statements in brackets, [], are optional or instructional. Bold, italicized text and italicized words within parentheses are information for the reader and are not included on production labels. Sequence of statements is optional unless specified in 40 CFR 156.10. Variables such as capitalizing, pluralizing, singularizing, bolding, italicizing and abbreviating are variable unless specified in 40 CFR. Lists of uses, use sites and surfaces may be used partially or in their entirety. The term 'towelette (s)' is interchangeable with wipe(s), towel(s), and cloth(s) and the term 'container' is interchangeable with dispenser(s), bucket(s), pail(s), tub(s) throughout the label. The term center(s), facility(ies), area(s), unit(s), clinic(s), room(s), lab(s), department(s), suites, office(s), operatory(ies) in the use site tables are interchangeable as applicable.

CLEANING AND STAIN REMOVAL

To clean -and/or- remove stains: Wipe surface with a wipe; [rinse and] let air dry. [If streaking is observed, wipe with a clean, damp [cloth] [or] [paper towel].] [[Works on] [effective against] [removes the following stains:]]

Claims:	Stains/Soils	Stains/Soils continued
<ul style="list-style-type: none">• Cleans• Removes stains• Removes (<i>insert stain(s)/soil(s) shown to the right:</i>)	<ul style="list-style-type: none">• Blood• Body oils• Bodily fluids• Coffee [stains]• Common soils• Dead skin• Defecation• Dirt• Fecal matter• Feces• Fingerprints• Food+ residue[s] -or- soil[s]• Food stains• Fruit [stains]• Grease• Grime• Laboratory stains	<ul style="list-style-type: none">• Mildew stains• Mold stains• Mucus• [Other] common soils -and/or- stains• [Other] organic matter• Phlegm• Protein-based matter• Saliva• Spit• Spittle• Sputum• Stool• Throw-up• Tea [stains]• Urine• Vomit

ALLERGEN DESTRUCTION

To [clean and] destroy specified allergens: Wipe surface. Use enough wipes for treated surfaces to remain visibly wet for 3 minute.

[Rinse.] Let air dry. [If streaking is observed, wipe with a clean, damp [cloth or] paper towel after contact time has expired.]

Claims:

- Breaks Down Many Allergens[!]
- Destroys -or- deactivates dust mite matter
- [Penetrates and] breaks down dust mite matter -or- particles, cockroach matter -or- particles, and pet dander allergens [found in dust]
